

# SOLUTIONS TO POLLUTION

## THE SEABIN PROJECT

**Learning Intention:** To investigate the Seabin, a unique invention & solution to ocean pollution.

**Problem:** What is the problem being solved? Who does this problem affect?

---

---

---

**Ideas:** What bright new idea did the men come up with to solve the problem?

---

---

---

**Solution:** What is the solution called? What is it made of? How does it work?

---

---

---

**Action:** What are the inventors doing with this solution? What's the next step?

---

---

---

**Wonder:** Can you think of another ocean problem that could be solved using a STEM solution?

---

---

---

---
